About Me

I am a dedicated and innovative technical professional. My career has been marked by a passion for leveraging technology to solve complex problems and deliver robust, scalable solutions. Proficient in a wide range of technologies and programming languages, I thrive in dynamic environments where I can continuously learn and apply new skills.

Experience

Tridev IT Solution   2023– 2024
Web Developer

Work Project Detalis

Project I :- Hospital Management System

- The Hospital Management System (HMS) is a comprehensive software solution designed to automating various processes including patient registration, appointment scheduling, medical record management, billing, and inventory management.
- The system ensures that all patient data is securely stored and easily accessible to authorized personnel, enhancing patient care and operational efficiency.

Project II : Router India

- Developed a user-friendly e-commerce website focused on networking hardware, including routers, switches, and hubs. Integrated features allowing customers to browse products, view detailed specifications, and place orders seamlessly.
- Implemented a secure paytm's payment gateway and a responsive design for optimal performance on all devices
- https://routerindia.com/

Certificate

- System Administration And IT Infrastructure Services 96%
- Programming For Everybody (Getting Started With Python) 97.5%
- Programming Foundation With JavaScript, HTML and CSS 91%
